MARION for Territorial Secretary?

Well worse things might happen to us—but not many.

THE COURIER seems to have contracted a cold. Got poor covering the load of coin it made out of the legislature.

THE county court business is something like a fifth wheel to a wagon, neither ornamental nor useful and terribly expensive.

CHARLIE BEACH is contemplating a trip to Washington after the manner of his Democratic friends. He is to be appointed harp or cornet for Prescott.

THE Tombstone is coming home from Washington. Has he got the gubernatorial appointment in his pocket so early as this? Perhaps he has got a flea in his ear.

MR. N. Ellis whose name has been favorably mentioned for the gubernatorial chair when Gov. Tritle's time has expired, has very gracefully given his friends to understand that he does not want the office through an article in the Miner.

WASHINGTON information is to the effect that large numbers of would be office holders are returning home from their little wild goose chase to the Capital City disgusted and disheartened with their ill success. They have doubtless discovered that there are things of more importance in the United States governmental affairs than their little wants and petty affairs.

THE Yuma Republic says that the \$10,000 levee provided for by the legislature can be built to answer all practical purposes for \$500 and further concludes that it would be unjust to tax three fourths of the county for the protection of one fourth. The legislature doubtless labored under a common opinion that the county of Yuma lay inside the boundaries of the town of that name.

IF the fight of the Tucson papers is against fraud and extravagance as the Star says it is, why don't they take up a few more Pima county statements, those who got away with the swag by squeezing it out of the printers of Prescott if they could get it no other way. They make a scape goat out of Stevens because he voted against the capital and have turned attention in his direction while the swag rests quietly in other pockets.

ONE of the very best laws ever passed by a Territorial Legislature was passed by the late distinguished, amidst all the turmoil and trickery through which it is reputed to have passed. It is a humane and Christian law for the relief of unprotected children and those not properly cared for by inhuman parents and those who are being brought up in houses of ill fame. The sooner that law can be put into active execution the better.

THE Tucson Star says the fight of the Tucson people is not against this valley. No one ever thought there was a fight against the valley by the people of Tucson; it comes from a couple of journals published in Tucson that hope to receive, if they have not already received their reward from a clique that are fighting the valley from a purely selfish and corrupt motive, and it is from this crowd that those journals have got their que.

THAT citizen's committee to "divine ways and means" to keep Maricopa county down has begun to comprehend the animus of the parties that originated the idea and the motives which stimulated the editorials of the CITIZEN and STAR, and all the respectable gentlemen whose names were connected with it are withdrawing. L. C. Hughes will be left as its chairman while the body of the thing, the creation of his own sensitive liver, will have dwindled to naught.

WASHINGTON WEEPS.

The Senate "Wants to go Home" and Will Adjourn About the First of March.

But a Few Appointments Being Made By the President!

Female Clerks Disappearing From the Departments—Brunettes vs. Blondes.

From our Special Correspondent.

WASHINGTON, March 19, 1885.

ED. HERALD—Since my last letter to the HERALD Washington has had time to get her breath freely after the rush consequent on inauguration and now the situation is more clearly apprehended.

The new administration is a source of continued surprise to the Republican senators. So few nominations have been sent in by President Cleveland for confirmation that the dignified and easy-going legislators are actually weary of doing nothing and wish to go home. Hence it is about decided that a final adjournment will be taken by the last of this month. The Republicans no less than the Democrats expected that at least 200 nominations would be passed upon during the extra session, and while the former are astonished, the latter are dissatisfied at the small number of changes made in the executive offices. Both alike desired the credit of confirming a great number of new officers, but will find their labors with a feeling of but little accomplishment. "However, it will make no difference," said a Democratic senator today, "the rush of appointments will not occur until we adjourn and the list of new office holders will swell rapidly during the eight months which will intervene before the next session of Congress." The host of new appointees during the recess will be inducted to office without opposition and the senate can confirm them next December in the usual course of business.

The hosts of office seekers, who remained here after the inauguration are disappearing rapidly, it being found that the new administration is determined to take things easy in making changes in office. The 5,000 applicants who have recently visited Washington are returning home sad-eyed and more or less disheartened, the party managers have decided that all Republicans must go, but President Cleveland dictates the order of going, and, under the circumstances four years will be required to make a clean sweep.

The discovery has been made that the number of female clerks employed in the departments has largely decreased during the past as compared with previous years. This is attributed some say, to the working of the civil service law. The Bureau Chiefs, when called upon to decide between a male and female applicant, invariably prefer the man, and so it happens the number of female clerks is diminishing. This is an effect certainly not anticipated by the author of the law. But it is possibly not the law that is so much to blame as the administration of it. What sort of men are these Bureau Chiefs that they should "preferably" prefer male to female clerks? But this is not the whole of the disheartening story. When it comes to a decision between female applicants, the chiefs favor the brunettes at the expense of the blondes. The excuse given for this is that the blondes are too quick tempered and do not make as efficient clerks as the brunettes. This has driven the blondes to desperate and dark devices. An incident is given of a lady recently appointed to a position in the Treasury Department, who during the trying ordeal preceding her appointment, disguised herself in a dark wig, only showed in her true colors as a blonde of the blondes where her position was made sure and secure.

TELEGRAPHIC.

A COPIER SUIT.

BALTIMORE, March 24—The Arizona Copper company, of Edinburg, Scotland, has sued out two replevins in the United States circuit court for a receiver for the possession of copper, valued at \$13,300. The plaintiffs, owners of the mines in Arizona, shipped crude copper to Pope, Cole & Co., and replevins to recover possession of the copper consequent upon the failure of the firm. The United States Marshal seized the copper.

THE BOOMERS.

COFFEYVILLE, March 24—The boomers are gathering from various points at Coffeyville, and leaving in squads as fast as they arrived for Oklahoma. A number of teams arrived to-day and will probably leave on Monday. The Coffeyville colony has a number of detachments now in Oklahoma, and a number on the road, notwithstanding the president's proclamation. A special to the Arkansas City Times says the intelligence that the Coffeyville colonists have crossed the line and entered the Territory occasioned considerable excitement there. While the troops are engaged in keeping out the Couch boomers encamped there they are going in at other points, and if the movement continues it will be necessary for the troops to march to Oklahoma and remove them. Freighters report a number of them settled along the Canadian river in tents and dugouts. Captain Deewes with five companies will reach that vicinity within a week and turn back the party. General Hatch is here, and if he finds it necessary to send forward the troops stationed at this point they will be replaced by six companies from Fort Leavenworth.

HEAVY SUIT.

ST. LOUIS, March 25—C. M. Mot-fat receiver of the Harrison Wire Works Co., of this city brought suit to-day in the circuit court against

ARIZONA.

The Land of Sunshine And Silver.

A Talk with U. S. Commissioner Murphy About the Attractions of the Arizona.

Col. Frank M. Murphy, the United States Commissioner from Arizona, was found yesterday afternoon busily engaged making up a catalogue of the ten thousand or more specimens and samples of Arizona products, which embrace not only every valuable mineral known to the Northern Hemisphere, but all the agricultural products grown in the Southwest. Moreover the exhibit contains oranges and lemons, figs, olives and all semi tropical fruits.

"Tell me, Colonel, what inducements Arizona has to offer to immigrants," asked the Statesman.

"Well, we have uncultivated GRAZING LANDS

capable of feeding and keeping fat all the year round millions of heads of cattle. I do not mean lands that will yet be made available for pasturage by irrigation and artesian wells, but such as are already

WELL WATERED,

and which are now ready for occupation by any one who may come and occupy them."

"We have hundreds of thousands of acres," continued the Colonel, "of the FINEST AGRICULTURAL LAND

in the world, capable of growing cotton, sugar cane and all the cereals, fruits and vegetables. These lands can be purchased, unimproved, with water right sufficient for all irrigating purposes, at from \$5 to \$10 per acre. The improved hands for from \$15 to \$25 per acre. This is identical the same land that in Los Angeles sells for upwards of \$100 an acre.

OUR LUMBER INTERESTS

are quite extensive, timber being very plentiful. A single mill on the Atlantic and Pacific railroad turns out 100,000 feet a day."

"Where do you ship your lumber?"

"To Southern California; coming into successful competition with the entire Pacific slope; and also to New Mexico and old Mexico. In fact most of the ties for the Mexican Central railroad came from Arizona."

"I am told you have

LARGE DEPOSITS OF COAL

on some of the Indian reservations in Arizona?"

"Yes, and it will soon be made available. Two railroads will on an early day open up our coal fields one connecting with the

ATLANTIC AND PACIFIC

railroad and the other one connecting with the Southern Pacific by the way of Phoenix."

"What do you think about cotton growing in Arizona?"

"As you have seen, we have some fine samples of cotton here in our display. It ranges an open question, however, whether or not our lands can be used to better advantage than producing the fleecy staple."

"Are most of the people of Arizona prospering?"

"Yes, they are all doing well. We are getting our full share of

WESTERN IMMIGRATION,

and I am daily receiving advices as to the successful development and increased output of the various mines of the Territory. We have hundreds of thousands of tons of ore already on the dumps awaiting the arrival of railroads so as to get the benefit of reduced transportation. In Arizona a ton will not run upward of \$50 a ton is not worked."

"How about your copper interest?"

"I think that Arizona has caused the break in the price of

COPPER,

and I think the time is not far distant when the famous Calumet and Hecla copper mines of Lake Superior will have to take a back seat."

When the World's Exposition was first held at Arizona.

GOVERNOR OF ARIZONA

sent Col. Murphy's name to President Arthur as United States Commissioner for Arizona. He accepted the appointment because he was deeply interested in the welfare of his Territory, and at once set about securing the services of

REPRESENTATIVE MEN

to co-operate with him in getting up a creditable collection exhibit.

The Daily States has heretofore taken occasion to refer in detail to the magnificent collection of minerals and agricultural products that go to make up the Arizona exhibit.

"Before you go, a word about our Governor," said Col. Murphy.

GOVERNOR F. A. TRITTE,

the man to whom is due a great deal of credit for this display of Arizona's wealth devoted to this work his most earnest energies, at all times urging the importance of having Arizona

VIC WITH OTHER STATES

and Territories at the World's Fair.

"The present prosperous condition of affairs in our Territory," Col. Murphy continued, "is due in a great measure to Gov. Tritle's efforts. He was one of the first men to open the celebrated Comstock mine in Nevada, and is thoroughly familiar with the wants and requirements of a new country."

He has succeeded in securing for the Territory that degree of consideration at Washington to which it was justly entitled, thereby effecting results that have nured to the unspeakable benefit of the entire Territory."—Sunday N. O. States

Gierk—"What is it you want?" Little girl—"I want a pair of stockings."

"For yourself?"

"Yes sir."

"Well, here is a pair I think will fit you."

"Oh! dose won't never do. I want a great big pair, ever so big No. 200 or 300."

"Gracious! We have no such numbers. What do you want them for?"

"To hang up"—Ed.

RED STAR

TRADE MARK.

COUGH CURE

A PROMPT, SAFE, SURE CURE

For Croup, Colds, Whooping Cough, Asthma, Bronchitis, Sore Throat, Hoarseness, and all other affections of the Throat and Lungs.

Price 50 cents a bottle. Sold by Druggists and Dealers. Purse unable to induce their dealer to procure it, it will be sent by mail, by Express charges paid, by sending one dollar.

THE CHARLES A. VOELLER COMPANY, Baltimore, Maryland, U. S. A.

HOSTETTER'S

CELEBRATED

STOMACH

BITTERS

The Fittest Subjects

For fever and all ailments, are the debilitated, bilious and nervous. To such persons, Hostetter's Stomach Bitters affords adequate protection by increasing vital stamina and the resistant power of the constitution, and by checking irregularities of the liver, stomach and bowels. Moreover, it eradicates malarial complaints of an obstinate type, and stands alone unequalled among our national remedies.

For sale by all druggists and dealers generally.

Syrup of Figs.

Nature's own true laxative. Pleasant to the palate, acceptable to the stomach, harmless in its nature, cures Constipation, Biliousness, Indigestion, and kindred ills. Cleanses the system, purifies the blood, regulates the Liver and acts on the Bowels. Breaks up Colds, Chills, Fevers, etc. Strengthens the organs on which it acts. Better than bitter, nauseous Liver medicines, pills, salts, and draughts. Sample bottles free, and large bottles for sale by O. J. Thibodo, Phoenix, A. T.

Young Men, Read This.

THE VOLCANO BELL CO., of Marshall, Michigan, offer to send their celebrated

Key-Note Bells and other

APPLIANCES on trial for thirty days, and if not

entirely satisfied, will return them, with

freight, and no charge for return.

Write them at once for illustrated pamphlet free.

ESTRAY NOTICE.

Came to my ranch nine miles west of Phoenix, one small roan horse, one small bay horse, one in left fore leg; one small red cow and bull calf, no brands.

The owner will come forward, prove property, pay charges and remove same. If not so disposed of according to law, on March 25, 1885.
